

Storyboard for My Portfolio Website

1. Wireframe Design:

2. List of Web Pages and Purpose:

Page	Purpose
Home	Introduction and overview of the portfolio.
Professional	Showcases resume, vision, mission, and career goals.
Personality	Highlights personal traits, with emphasis on heroes like Asta and Goku.
Personal Development	Reflection on personal growth, including book summaries.
Storyboard	Contains the layout design and plan for the website.
References	Lists the references used in the project, including books and websites.

3. Theme of the Website:

The theme is anime-inspired with bright colors, bold contrasts, and hero fonts. This site aims to appeal to anime fans and tech enthusiasts, combining both elements to create an engaging and relatable experience.

4. List of Features:

Gallery: Images of Asta, Goku, and personality test results, profile picture and resume

Interactive Elements: Email link on profile picture (without JavaScript, using a mailto link).

Profile Section: Embedded images for a personalized touch.

Downloadable Resume: A downloadable PDF format of the resume.

5. Free Hosting Link:

Hosting link (GitHub Pages).
